

720-x-2-.01 *Definition of Plumbing.* With respect to the single-family residential dwelling domestic water supply, the water line from the meter to the building or from the outlet side of a well pump to the building is considered plumbing. With respect to the sewer, the building sewer begins at the connection with the building drain and is considered plumbing until it reaches the property line, an individual disposal system, or a point within an easement or right-of-way.

Non-residential domestic water supply and sewer represented by mechanical drawings signed and sealed by an engineer licensed in the State of Alabama shall be considered plumbing. Non-residential domestic water supply four inches in diameter and greater, and sewer lines six inches in diameter and greater, represented by civil drawings signed and sealed by an engineer licensed in the State of Alabama shall not be considered plumbing.

Sewage grinder pumps and sewage lift stations with discharge lines four inches and greater, and force mains four inches and larger shall not be considered plumbing.
